Model No. _____

8FT LED Strip Light

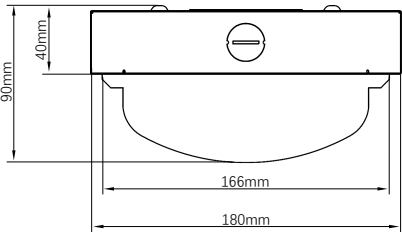

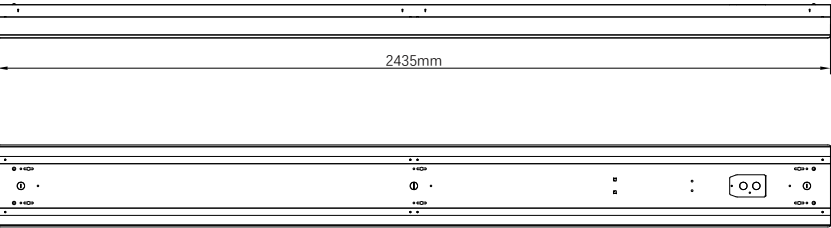

OVERVIEW

AVOVO 8 Feet LED Strip Lights are designed for offering a balance of the contemporary styling with the innovative technology to deliver exceptional performance and superior energy savings. With up to 60% lower energy consumption compared to traditional fluorescent fixtures, our AIS series is the perfect energy-saving replacement for both retrofit and new construction applications in industrial and commercial needs. The unique and easy connection interface allows for quick and easy installations for applications including garages, factories, workshops, utility rooms, warehouses, auto shops, distribution centers and retail applications.

DIMENSIONS

SPECIFICATION

Model No.	Watts	CCT(K)	Lumen Output (130 lm/w)	Beam Angle	CRI	Input Voltage
AIS18-80W-4000K-HV	80W	4000K	10400 lm	120°	>80	AC100-347V, 50/60Hz
AIS18-80W-5000K-HV	80W	5000K	10400 lm	120°	>80	AC100-347V, 50/60Hz
AIS18-100W-4000K-HV	100W	4000K	13000 lm	120°	>80	AC100-347V, 50/60Hz
AIS18-100W-5000K-HV	100W	5000K	13000 lm	120°	>80	AC100-347V, 50/60Hz

FEATURES

- Die-formed durable code gauge steel housing in baked white finish.
- Wiring knockouts are provided on back and ends of the housing.
- Aluminum extruded lamp trays for better cooling and dustproof.
- PC diffusers provide added protection & optimal performance.
- 130 lm/W LEDs provide high efficacy and energy efficiency.
- Long-life 100-347V drivers with 0-10V dimming standard.
- Continuous raceway and row-mounting capability.
- 2pcs standard V-hook hangers are included.
- Suspension and surface mounting.
